EDUCATION

Florida International University — B.A. in Computer Science | Miami, FL | May 2026

Cum Laude | Dean's List (4 terms) | Degree GPA: 3.53/4.00

PROJECTS

FOES Platform - Multi-Tenant SaaS Product (Next.js, TypeScript, Supabase, PostgreSQL, Vercel, Tailwind CSS) [Product Site](#) | [App](#)

- Built a private multi-tenant SaaS dashboard for managing client workspaces, reviews, promotions, leads, and business modules.
- Implemented Supabase Auth, role-based organization access, protected dashboard routes, review moderation workflows, and public API integrations.

Logisti-K | Bilingual Logistics Platform (Next.js, Tailwind CSS, Framer Motion) Client Project | [Live Site](#)

- Developed and deployed a bilingual logistics website using Next.js, Tailwind CSS, and responsive UI patterns.
- Integrated Logisti-K with FOES Platform to dynamically display approved client reviews from a centralized SaaS dashboard.
- Implemented multilingual navigation, quote/tracking CTAs, legal pages, WhatsApp integration, and production deployment workflows.

Clean & Care PRO | Customer Acquisition Platform (React, Tailwind CSS) Client Project | [Live Site](#)

- Developed and deployed a bilingual cleaning services website with lead capture forms, WhatsApp integration, responsive layouts, and three local service-area pages.

Boundless Church | Bilingual Website (Next.js, React, TypeScript, Vercel) | Pre-Launch | [Preview](#)

- Built a bilingual English/Spanish website with responsive layouts, reusable components, and localized navigation.
- Implemented About and Next Steps pages with corresponding Spanish routes, migrating official church content into a structured component architecture.

EXPERIENCE

CodingSoft Technology — Software Engineer & Founder | Brea, CA | 2024 – Present

- Develop and maintain web applications for small businesses using React, Next.js, and TypeScript, translating client requirements into technical solutions.
- Build FOES, a multi-tenant SaaS platform with organization-based access, review moderation, and API integrations for client websites.
- Deliver bilingual client websites with lead capture workflows, local SEO pages, and responsive interfaces, managing implementation and deployment.

Podium Education — Specialist Evaluator | California | January 2026 – Present

- Created dashboards and performed statistical analysis using Excel and Tableau.
- Evaluated technical assignments and adapted to evolving coding syntax and platform updates.

Florida International University — Teaching Assistant | Miami, FL | August 2024 – December 2024

- Supported 60+ students in Java programming and data structures through tutoring and labs.
- Developed JavaScript to automate quiz reviews and improve grading efficiency.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL, C | **Frontend:** React, Next.js, HTML5, CSS3, Tailwind CSS, Framer Motion
Backend: Node.js, PHP, REST APIs, Supabase | **Databases:** PostgreSQL, MySQL

Tools & Practices: Git, Vercel, Linux/Unix, Tableau, Agile, WordPress, Figma; AI-assisted development with human review of architecture, security, and tests
